International Student Enrolments

January - March

459,621

international enrolments so far in 2016

Enrolments show what courses international students are studying across Australia's different education sectors.

There are more enrolments than students since a student can study in more than one course in one calendar year.

For January-March, enrolments increased by 11.9% on the previous year.

12.7%

increase in 2016 commencements on the previous year

There have been 161,680 commencements so far in 2016.

Commencements are *new* enrolments (a subset of *all* enrolments).

Full international student data tables are at:
